

It is hard to believe that summer is gone and fall is here. We all have had a good summer but the change in seasons bring many other changes. The beauty of fall, the crispness in the air, the sounds of football, frost on the pumpkins.....you get the idea. Fall also brings the outlook for a new construction season. Many hours of design time in the colder months bring many hours of construction in the spring, summer, and fall.

We at HDH Associates are very happy to be working with Nottoway County Public Schools. They currently have a contract for construction for the shell of the new gymnasiums located at Blackstone Primary, Burkeville Elementary, and Crewe Primary Schools designed by HDH. The bids for the connectors between the new gymnasiums and existing schools are fast approaching and construction on both these projects should start soon.

Project Spotlight Auxiliary Gymnasium Additions

The new gymnasium additions will incorporate full size basketball and volleyball courts with retractable seating for 200 people. The facility includes new restrooms, an office, and storage rooms for equipment. The mechanical design allows for independent heating and cooling of the gymnasium. The gymnasium was designed to allow use by the community without having to open the school's main building.

Employee Spotlight

Lesla Smith joined HDH as an Administrative Assistant almost three years ago. She came with over 20 years of Office Management experience. She and her husband, Rodney, have two grown daughters, two grandsons and a granddaughter. Lesla loves the country and enjoys riding her four wheeler on her and her husbands farm in the beautiful Ellett Valley of Montgomery County. Lesla also enjoys hunting and fishing in her spare time. Right now she is keeping very busy with the new house they are building.
